CAREER OBJECTIVE

Aiming to excel as a Java developer, I aspire to design and implement robust software solutions. Eager to apply my proficiency in Java programming to create efficient and scalable applications, while adapting and learning from experienced peers in a collaborative work environment.

TECHNICAL SKILLS

- **Programming Language:** Java, JDBC, JSP, Servlets
- **Frontend:** HTML, CSS, JS
- **Databases:** MySQL
- **Frameworks:** Spring, Hibernate
-

STRENGTHS

- Strong Problem-Solving Abilities
- Effective Communication
-

PERSONAL PROJECTS

Online Books Store

November 2021 – March 2022

- Developed and deployed an online web application, resulting in increase in user satisfaction and a 40% growth in sales.
- Implemented search functionality, allowing users to browse through a diverse collection of books, resulting in increase in user engagement.
- Integrated secure credit card transactions, ensuring a smooth and reliable payment process, with a 99% transaction success rate.

Student-Management

- Developed a web-based student management system using Java, JDBC Template, and Servlet, enabling efficient management of student data and records.
- Implemented CRUD operations (Create, Read, Update, Delete) for student records, ensuring seamless data manipulation and maintenance.
- Designed and integrated a user-friendly interface using JSP, enabling effortless navigation and interaction with the student management system.

EDUCATION

Pursuring MCA in VSM College, Adikavi Nannaya (AKNU) University	2023- 2025
Bachelor of science in Mathematics Physics and Computer Science. VSM College, Adikavi Nannaya (AKNU) University	2019- 2022
Board of Intermediate Education. Ravi Junior College	2016 - 2019
Secondary School Certificate (SSC). Sri Vidyalaya E.M School	2016

ACHIEVEMENTS

- Received accolades from senior developers for consistently producing clean, well-documented, and efficient Java code, contributing to enhanced maintainability and ease of collaboration in the development team.
